Rep. Lynda Schlegel Culver

October 2021

## Fiscal Report

General Fund revenues of \$2.8 billion in October exceeded the monthly estimate by \$159.9 million. Year-to-date collections of \$12.09 billion are above estimate by \$788.2 million.

Every major tax category exceeded estimate for the month: total Corporation Taxes by \$33.0 million; total Sales Taxes by \$51.8 million; total Personal Income Taxes by \$45.8 million and all Other Taxes by \$11.3 million.

Additionally, Non-Tax Revenue collections also exceeded estimate by \$18.0 million for the month largely due to stronger than anticipated unclaimed property payments.

We continue to see stronger than estimated collections for the General Fund largely driven by strong consumer spending and corporate profits. The committee will continue to monitor revenue collections and any impacts that may occur as the Federal unemployment extensions and increased payments ended on September 4, 2021, the student loan forbearance period ends January 31, 2022, and the advanced child tax credit payments end December 2021.

As required by statute, the IFO will be releasing a report analyzing a 5-year assessment of the fiscal condition of the Commonwealth by November 15th which will provide updated revenue forecasts using current economic conditions through the first 4 months of the fiscal year.
